WAINWRIGHT, ALBERTA, WEDNESDAY, APRIL 26th, 1939

Price \$2.00 Per Year In Advance

Wainwright to Honor Royal Visit June 3rd

Committee Appointed at Citizens' Meeting to Make Necessary Arrangements for Holding Of Fitting Celebration; Probable Gathering Of 5,000 Visitors in Town for June 3rd Next

The adjourned meeting of the citizens, which was held in the Town Hall on Friday evening last saw quite a crowd of those interested in the forthcoming visit of the King and Queen to Wainwright on June 3rd next, and suggestions galore were thrashed out pro and con with regard to the matter of making the day a gala one for all and sundry, and inviting folks and their children from a truly large area to celebrate this auspicious occasion with us.

Before the meeting closed a general committee consisting of Messrs. J. MacKenzie, E. Heffernan, E. Erickson, C. Horn, G. Graham and W. Huntington, with Dr. Wallace and Mayor Middlemass was appointed to set on behalf of the citizens in carrying through the celebration, and later in the evening these gentlemen held their first meeting to set the necessary sub-committees, after appointing Mr. W. Huntington as chairman and Mr. F. Johns as secretary.

At the meeting held on Monday last when the full committee gathered, a tentative programme was drawn up, and a start made on the necessary arrangements to give all and sundry a real good time.

Proposals as at present laid out are for a long string of flat racing events for the children, as well as basketball, softball, baseball, horse races, etc.

Parking spaces for cars and vehicles are to be picked out, and other accommodations arranged for. A full-time midway is to be contacted and all freeco dancing, fireworks and so forth are all being considered to make the day one to be fully remembered for a lifetime in commemoration of this auspicious visit to Wainwright of Their Majesties, King George and Queen Elizabeth, on June 3rd, 1939.

Vale Council Decide Discount Early Taxes

Will Levy Four Mills for Wainwright Hospital; No Seed Grain Furnished for 1939 Crop; Weed Inspectors Appointed.

A regular meeting of the Council of Vale M.D. was held on Saturday, April 15th, all councillors being in attendance with Reeve Castle presiding.

Moved by Coun. Currier—That the minutes of council meeting held on March 13th be adopted as read.—Carried.

Moved by Coun. Nelson—That report of the Secretary in connection with presentation of brief on Klippert case to the Minister of Public Health on March 22nd, be accepted and that he be discharged relative to this commission.—Carried.

Moved by Coun. Currier—That the council as a whole be appointed a commission to investigate the complaint of R. Lindberg relative to alleged damage done to fence and also to come to an agreement on establishing a road in this locality.—Carried.

Moved by Coun. Currier—That Secretary's action relative to proposed diversion of provincial monies to liquidate University Hospital accounts be approved by council.—Carried.

Moved by Coun. Currier—That a discount of seven per cent. be allowed on all current taxes paid prior to the first day of October.—Carried.

Moved by Coun. Castle—That no assistance be furnished by District in procuring seed grain for 1939 crop.—Carried.

Moved by Coun. Nelson—That the application of Lawrence Byrnes for an old age pension be recommended by council in the maximum amount.—Carried.

Moved by Coun. Currier—That notice of admission of Mrs. E. Peterson to St. Anne's Hospital, Hardisty, and Miss P. Roberts to Wainwright Municipal Hospital, be received and filed.—Carried.

Moved by Coun. Currier—That account of M.D. of Hillcrest, No. 362 for the mixing of 71,995 pounds of grass-hopper bait in 1938 at a cost of \$87.00 be ordered paid.—Carried.

Moved by Coun. Currier—That we do now adjourn.—Carried.

Council Sits as Court of Revision

Sitting as a court of revision of assessments, the Town Council last week gave quite a lot of time and study to the several appeals which had been entered, but in all cases felt that the assessments complained of were equitable when compared with other property in the same area. For that reason all of the appeals in the townsite area were dismissed, with the exception of the valuation placed upon the convent of St. Joseph. This property—owing to the fact that it is of an educational nature and contains a chapel was given a reduction of \$900.00 in its assessed valuation.

Three appeals from the name of the person assessed were allowed, in view of the fact that ownership of these properties had changed, and the name of the new owner was ordered inserted in the assessment roll.

Regarding some seven pieces of farm land included in the area of the Wainwright school district (but outside the town limits), although appeals were made for a reduced valuation it was shown that the assessment on these conformed to the values set by the municipality affected as called for by the Act, and therefore were not allowed.

The Allan Cup, emblematic of the Senior Amateur Hockey championship of Canada, remains in the West for another year. Port Arthur Bears defeated a Montreal team, representatives of Eastern Canada, three games to one in their best-of-five series played at Montreal this week.

Moved by Coun. Nelson—That authority be granted Mrs. Helmar Tanti to have examination and tests made by Dr. Rich, of Provost, in accordance with recommendations made in communication of March 14th.—Carried.

Moved by Coun. Currier—That monthly statement for month ending March 31st and as presented by the Secretary at this time, be approved by Council and ordered filed.—Carried.

Moved by Coun. Currier—That bills and accounts in a total of \$420.67 be ordered paid.—Carried.

Moved by Nelson—That the Secretary-Treasurer be appointed as assessor of the District for 1939.—Carried.

Moved by Coun. Currier—That the following ratemakers be appointed as Weed Inspectors for the current year: Div. 1, Walter Scott; Div. 3, O. J. Gould; Div. 4, Fred Attevel; Div. 5, Ivan Kimball.—Carried.

Moved by Coun. Currier—That a similar charge be made on vacant assessable land for the putting out of gopher poison as in 1938.—Carried.

Moved by Coun. Nelson—That relief be discontinued to the following recipients as from May 1st: F. Clark, W. Elson, R. McAvoy, J. Novak, Helmar Tangen.—Carried.

Moved by Coun. Castle—That the following correspondence be ordered filed: Royal Alexandra Hospital; Peterson Funeral Home; and the Bureau of Relief and Public Welfare.—Carried.

Moved by Coun. Castle—That the accounts as tabulated on Form R.B. 45, for the month of March, be approved by Council.—Carried.

Moved by Coun. Currier—That we do now adjourn.—Carried.

We are sorry to learn that Mr. Geo. Gregson was bereaved by the death of a brother, who passed away at his home in the Isle of Wight. The deceased was a veteran of the South African war.

Council Adopts '39 Assessment Roll

Rents More Garden Plots; Deals With Relief Cases; Pass Bylaws for Property Disposal; Seek to Adjust School Tax Rate.

Following is a record of the proceedings of the council of the Town of Wainwright at its regular meeting on Tuesday, April 18th.

The members of council present at this meeting were Mayor Middlemass and Councillors Lismore, Huntington, Billing, Welch and Cork.

The recorded proceedings of council at its regular meeting of April 4th, 1939, were read and, on motion by Councillor Cork, were adopted and confirmed as written.

Mr. H. U. Taylor offered payment of \$4.00 for a lease on Lots 9 and 10 in Block 18, Plan 6445V, for gardening purposes in the year 1939, provided he be given the first opportunity to purchase the said lots, during the current year, at a price agreeable to council, the said \$4.00 paid for the lease to apply on the purchase price in case the purchase was consummated during the year 1939, and on motion by Councillor Lismore, his offer was accepted and authority was granted for the leasing of this property for gardening purposes for 1939.

Mr. E. Schumacher wrote council requesting approval of council to the granting of a license for the conduct of a butcher shop by him on Lot 1 in Block 21, Plan 6445V, which approval was essential in his obtaining a license from the Department of Trade and Industry, and on motion by Councillor Huntington, council recommended the issuing of a license by the department, the recommendation to be conveyed to the Department of Trade and Industry by the Secretary-Treasurer.

A communication from Mayor J. E. Lewis, of Ottawa, was ordered filed on motion by Councillor Cork.

A communication from the Edmonton Reception Committee to Mayor Middlemass was presented to council and, on motion by Councillor Huntington, the communication was ordered filed; the information therein contained to be communicated to council by the Secretary-Treasurer.

The Field Commissioner of the provincial agricultural department requested a list of greenhouses in the Town of Wainwright and, on motion by Councillor Huntington, the Secretary was instructed to communicate the desired information to the department.

On motion by Councillor Billing, by-law No. 245 was read a third time, was assigned its title as in the original motion, was finally passed and the Mayor and Secretary-Treasurer were authorized and instructed to sign the said by-law and attach thereto the corporate seal of the Town of Wainwright.

On motion by Councillor Lismore, council granted its assent to the introduction of a by-law concerning the sale of Lots 7 and 8 in Block 27, Plan 6445V, Wainwright, Alberta.

By-law No. 247 was then introduced and was given its first and second readings on motion by Councillors Huntington and Billing respectively.

On motion by Councillor Cork, the Mayor and Secretary-Treasurer were authorized and instructed to certify that by-law has received its first and second readings, the Secretary was further instructed to take necessary steps to obtain the approval of the Minister of Municipal Affairs to the sale of the said property and Mr. Joseph Welch was appointed valuator of the property for the purpose mentioned.

On motion by Councillor Lismore, the Secretary-Treasurer was instructed to amend the assessment roll of the Town of Wainwright for the year 1939 in accordance with the decisions of the court of revision and the assessment roll as thus amended was adopted as the revised assessment roll of the Town of Wainwright for the year A.D. 1939.

On motion by Councillor Huntington, the Finance Committee were authorized to obtain from the Minister of Education for the Province of Alberta an adjustment of rates of taxation for school purposes, which will be equitable as to property within the boundaries of the Town of Wainwright, subdivided farm lands and unimproved farm lands, both of the latter situated outside the limits of the said town, but within the limits of the said district.

The provincial Department of Relief and Public Welfare wrote relative to assistance furnished to Mr. P. J. Potvin by the City of St. Boniface, Manitoba, on motion by Councillor Lismore, this matter was referred to the Finance Committee for attention.

A request for \$600 from the Wainwright School District for the payment of necessary expenses was presented to council and, on motion by Councillor Lismore, authority was granted for the issuing of a cheque in the said amount.

Mrs. Pawling requested permission to place a few large stones in line with the trees on the side of the avenue in front of her property, but as the Town of Wainwright would be held liable in case of any resulting damage was council to accede to her request, on a majority vote the request was refused.

Mr. A. B. Kristensen made application for the use of Lot 18 in Block 29, Plan 6445V, for gardening purposes, and Mr. J. Firestone made application for the use of Lot 6 in Block 88, Plan 5721 A.D. for the same purpose, and during the same period, being the year 1939, and on motion by Councillor Billing, council granted its assent to the leasing of these two lots to the applicants for the purpose mentioned during the year 1939, and the \$3.00 stated in each application was accepted as rental.

Mr. John Wilkins made written tender for the purchase of Lots 7 and 8 in Block 27, Plan 6445V, as advertised in the Wainwright Star of the week previous, and on motion by Councillor Billing, his tender was accepted on condition that he pay the cost of the advertisement.

Mr. J. W. Street wrote council relative to a dry lease for the year 1939 and, on motion by Councillor Lismore, the communication was ordered filed for future reference.

A communication from Councillor Lismore, by-law No. 243 received its third reading, was assigned its title as in the original motion, was finally passed and the Mayor and Secretary-Treasurer were authorized and instructed to sign the said by-law and attach thereto the corporate seal of the Town of Wainwright.

On motion by Councillor Lismore, council granted its assent to the introduction of a by-law concerning the sale of Lots 7 and 8 in Block 27, Plan 6445V, Wainwright, Alberta.

By-law No. 247 was then introduced and was given its first and second readings on motion by Councillors Huntington and Billing respectively.

On motion by Councillor Cork, the Mayor and Secretary-Treasurer were authorized and instructed to certify that by-law has received its first and second readings, the Secretary was further instructed to take necessary steps to obtain the approval of the Minister of Municipal Affairs to the sale of the said property and Mr. Joseph Welch was appointed valuator of the property for the purpose mentioned.

WEDDING BELLS

SCOTT-FORMANKO

The pastor, Rev. T. E. Armstrong, B.A., B.D., performed a quiet marriage at the United Church parsonage on Saturday evening last, when Miss Alice Irene Formanko, of Edgerton, became the bride of Mr. Gustaf Theodore Scott, of Metlakow.

Following a short honeymoon, the happy couple will reside on the groom's farm in the Metlakow district.

ANNUAL MEETING

The Annual Meeting of the Wainwright Tennis Club will be held in the Town Hall on Friday next, April 28th, at 8.15 p.m., when all interested are invited to attend.

Wainwright Ladies Free Sewing Lessons

Starting on Thursday morning April 27th, the Singer Sewing Machine Co. is giving a series of free lessons in home sewing in the Masonic hall, Wainwright, which will be under the guidance of Miss Armstrong, of the educational department of the company at Wainipeg.

Both morning and afternoon sessions will be held each day until 4.30 p.m. on Wednesday next (except Sunday).

Demonstrations will be given by Miss Armstrong on the latest methods of pattern taking, style selection, color harmony, etc., as well as the care and use of your sewing machine and attachments, and full information regarding this feature will be found in the display advt. on page 5 of this issue.

Start Work on Highway Program

Preparations are being made by the provincial public works department for an immediate start on the highway improvement program for the present year, according to information received by officials of the Alberta Motor Association.

Contracts have been let already for 208 miles of main highway graveling. Much of this work will be undertaken on the highway between Red Deer and Crossfield which was reconstructed last year, while another long stretch is in the southern part of the province.

Major part of these graveling contracts will be for hauling, with a similar proportion for spreading and finishing.

The department also is going ahead with its "hard surfacing" program. It is the intention, according to announcement by Hon. W. A. Fallow, Minister of Public Works, to lay a second or "real" coat on the main highway between Calgary and Crossfield and from Millet to Ponoka. These sections of the Edmonton-Calgary highway, in addition to other sections, were "blottered" last year.

The province also intends to "blotter" a reconstructed section of the Jasper highway immediately west of Edmonton just as soon as spring weather conditions permit and also to carry out further reconstruction for a stretch of 13 miles from Stony Plain to Carvell corner.

Special Stamp Issue Marks Royal Visit

When the King and Queen visit Wainwright on Canadian soil at Quebec on May 15, post office employees from coast to coast will place on sale crisp sheets of new postage stamps specially issued to commemorate the royal visit.

The one-cent stamp will be green and black, with full-face portraits of Princesses Elizabeth and Margaret Rose. The two-cent will be brown and black, with a picture of the National War Memorial to be unveiled by the King, May 18. The three-cent will have full-face portraits of the King and Queen and will be red and black. All three stamps will be double size.

Battle River M.D. Sets Municipal Tax

Lease Several Parcels Farm Land; Allow Few Appeals at Court of Revision; Deal With Number of Relief Cases.

The council of the municipal district of Battle River, No. 423 met in the office of the said district on Thursday, April 13th, with a full council present and Reeve Smallwood in the chair.

Moved by Coun. Blackley—That the minutes of March 13th last be approved as read.—Carried.

Moved by Coun. Stewart—That Dr. Greenberg be sent down to check over O. E. Bergquist and report to this meeting today as to his condition.—Carried.

Moved by Coun. Smallwood—That relief be extended to Mrs. Bergquist for \$12.00 until May 11th.—Carried.

Moved by Coun. Stewart—That Dr. Greenberg be sent down to check over O. E. Bergquist and report to this meeting today as to his condition.—Carried.

Moved by Coun. Smallwood—That relief be extended to Mrs. Bergquist for \$12.00 until May 11th.—Carried.

Moved by Coun. Stewart—That the Secretary be instructed to draw up a by-law for the purpose of purchasing one 10-foot Adams mainline for Division 1 and payment thereof, and present same at May meeting.—Carried.

Moved by Coun. Stewart—That the report of the Reeve and Secretary re J. Blake and other municipal matters be accepted.—Carried.

Moved by Coun. Blackley—That relief be extended to Geo. McLean for \$20.00 until May 11th.—Carried.

Moved by Coun. Blackley—That relief be extended to Mrs. A. Kralik for \$6.00 until May 11th and charge to provincial government.—Carried.

Moved by Coun. Dalton—That relief be extended to F. Carlier for \$12.00 until May 11th.—Carried.

Moved by Coun. Stewart—That relief be extended to C. Abernethy for \$3.00 per week and that Mr. Dalton, as a committee, have charge of this matter and to discontinue said relief on advice that this man is working.—Carried.

Moved by Coun. Smallwood—That this council lease to R. Headon the SE 38-46-7 for one year, the council share of crop and one-third share of all hay crops harvested and the balance of the proceeds of the 1938 lease owing to the Municipal District, agreed upon as \$15.00 is not paid before the 1939 crop is harvested the same be deducted from said lease's share on the year's returns. Lessee to control all noxious weeds; fences, fixtures and other improvements shall not be removed from said land without the consent of the Municipal District and proceeds of said lease to be applied on the arrears of taxes owing.—Carried.

Moved by Coun. Dalton—That this council lease to M. LaCompt the N1/2 16-45-7 for one year for one-third share of all crops grown on said land, clear, delivered to the elevator at Irma, storage grade tickets delivered to the Secretary-Treasurer in full payment of said lease.

Moved by Coun. Blackley—That the council lease to Alex. Skoze the NW 24-44-9 for a period one year for one-third share of all crops grown on said land, clear, delivered to the elevator at Irma, storage grade tickets delivered to the Secretary-Treasurer in full payment of said lease.

Moved by Coun. Smallwood—That A. Skoze give to this Municipal District a chattel mortgage on 4 milch cows for the sum of \$97.00, being the amount owing to the Municipal District by the said A. Skoze on crop-share lease on the NW 24-44-9 for 1938, and Secretary obtain said chattel mortgage without delay and register same in the proper registration district.—Carried.

Moved by Coun. Blackley—That the council lease to Alex. Skoze the NW 24-44-9 for a period one year for one-third share of all crops grown on said land, clear, delivered to the elevator at Irma, storage grade tickets delivered to the Secretary-Treasurer in full payment of said lease.

Moved by Coun. Smallwood—That A. Skoze give to this Municipal District a chattel mortgage on 4 milch cows for the sum of \$97.00, being the amount owing to the Municipal District by the said A. Skoze on crop-share lease on the NW 24-44-9 for 1938, and Secretary obtain said chattel mortgage without delay and register same in the proper registration district.—Carried.

Moved by Coun. Blackley—That the council lease to Alex. Skoze the NW 24-44-9 for a period one year for one-third share of all crops grown on said land, clear, delivered to the elevator at Irma, storage grade tickets delivered to the Secretary-Treasurer in full payment of said lease.

Moved by Coun. Smallwood—That A. Skoze give to this Municipal District a chattel mortgage on 4 milch cows for the sum of \$97.00, being the amount owing to the Municipal District by the said A. Skoze on crop-share lease on the NW 24-44-9 for 1938, and Secretary obtain said chattel mortgage without delay and register same in the proper registration district.—Carried.

Court of Revision of the Municipal District of Battle River, No. 423, to deal with complaints of the assessment made in 1938 to be effective in 1940, as per Chapter 81 of the Statutes of the Province of Alberta, 1938, declared open.

Moved by Coun. Blackley—That the complaint on SE 24-45-5 be considered and assessment reduced from \$1,250 to \$1,200.—Carried.

Moved by Coun. Smallwood—That the complaint on NW 34-45-9 be considered and assessment reduced from \$1,550 to \$1,400.—Carried.

Moved by Coun. Collette—That the complaint on the SW 5-46-7 be considered and assessment reduced from \$1,450 to \$1,300.—Carried.

Moved by Coun. Blackley—That the complaint on the NW 35-45-8 be considered and assessment reduced from \$1,700 to \$1,500.—Carried.

Moved by Coun. Steele—That the complaint on SW and SE 25-45-8 be considered and that the assessment be reduced from \$1,300 to \$1,200 each on account of 12 acres taken for government roadway and area not computed.—Carried.

Moved by Coun. Blackley—That the complaint on NE 17-44-9 be considered and assessment reduced from \$800 to \$600.—Carried.

Moved by Coun. Blackley—That the complaint on the SE 17-44-8 be considered and assessment reduced from \$650 to \$600.—Carried.

Moved by Coun. Blackley—That the complaint on the NE 5-45-8 be considered and that the assessment be reduced from \$1,000 to \$900.—Carried.

Moved by Coun. Smallwood—That the assessment on the NW 7-45-9 be considered and assessment reduced from \$650 to \$500.—Carried.

Moved by Coun. Smallwood—That the complaint on the NW 35-45-8 be considered and assessment reduced from \$1,500 to \$1,200 each on account of 12 acres taken for government roadway and area not computed.—Carried.

Moved by Coun. Stewart—That the complaint on NE 17-44-9 be considered and assessment reduced from \$800 to \$600.—Carried.

Moved by Coun. Blackley—That the complaint on the SE 17-44-8 be considered and assessment reduced from \$650 to \$600.—Carried.

Moved by Coun. Blackley—That the complaint on the NE 5-45-8 be considered and that the assessment be reduced from \$1,000 to \$900.—Carried.

Moved by Coun. Smallwood—That the assessment on the NW 7-45-9 be considered and assessment reduced from \$650 to \$500.—Carried.

Moved by Coun. Smallwood—That the complaint on the NW 35-45-8 be considered and assessment reduced from \$1,500 to \$1,200 each on account of 12 acres taken for government roadway and area not computed.—Carried.

Moved by Coun. Stewart—That the complaint on NE 17-44-9 be considered and assessment reduced from \$800 to \$600.—Carried.

Moved by Coun. Blackley—That the complaint on the SE 17-44-8 be considered and assessment reduced from \$650 to \$600.—Carried.

Moved by Coun. Blackley—That the complaint on the NE 5-45-8 be considered and that the assessment be reduced from \$1,000 to \$900.—Carried.

Moved by Coun. Smallwood—That the assessment on the NW 7-45-9 be considered and assessment reduced from \$650 to \$500.—Carried.

Moved by Coun. Smallwood—That the complaint on the NW 35-45-8 be considered and assessment reduced from \$1,500 to \$1,200 each on account of 12 acres taken for government roadway and area not computed.—Carried.

Moved by Coun. Stewart—That the complaint on NE 17-44-9 be considered and assessment reduced from \$800 to \$600.—Carried.

Moved by Coun. Blackley—That the complaint on the SE 17-44-8 be considered and assessment reduced from \$650 to \$600.—Carried.

Moved by Coun. Blackley—That the complaint on the NE 5-45-8 be considered and that the assessment be reduced from \$1,000 to \$900.—Carried.

Moved by Coun. Smallwood—That the assessment on the NW 7-45-9 be considered and assessment reduced from \$650 to \$500.—Carried.

Moved by Coun. Smallwood—That the complaint on the NW 35-45-8 be considered and assessment reduced from \$1,500 to \$1,200 each on account of 12 acres taken for government roadway and area not computed.—Carried.

Moved by Coun. Stewart—That the complaint on NE 17-44-9 be considered and assessment reduced from \$800 to \$600.—Carried.

The New Area in Agriculture

REVOLUTIONARY CHANGES ARE
BROUGHT BY FARM MACHINERY
Pioneer Days Recalled in Rotary
Address

The vast changes that have been effected in farming through the use of labor-saving implements and the part that modern farm machinery is playing, in reducing the farmer's cost of production, were the highlights in an address on "The New Era in Agriculture" given before the Rotary Club of Wainwright recently by John Martin, of the Massey-Harris Company.

Mr. Martin, by striking contrasts of production figures, brought home to his audience the importance of agriculture in Canada, showing that the value of the fodder crops of Canada for 1937 amounted to \$138,000,000—whereas that for the total gold production of Canada, for the same year was \$143,000,000, or "practically the same amount for fodder—just feed for horses and cattle, as for the gold

production of Canada", and that "the dairy production of Ontario and Quebec alone was \$157,000,000 or \$14,000,000 more than for the total gold production of Canada."

"The story of the development of agriculture from the small clearings of the pioneer days to the larger acreages of today," the speaker said, "was largely the story of the introduction and development of farm implements, and Canadians had played a most important part in it."

Exports Important to National Economy

"Men like the Harris's, Massey's, Wither's, Patterson's, Verity's, Cockshutt's, Frost and Wood, had put Canada right in the forefront of implement making in the world," he said. "I told how the small plant started in Newcastle by Daniel Massey in 1847 had grown and of the amalgamation with the Harris Company in 1891. How the business had spread to 32 countries of the world and spoke of it as being as firmly established in the business of a score of other countries as in its own native land."

"As a result of its export business, Massey-Harris," he said, "in the ten-year period from 1928-1937, spent in Canada \$21,261,000 more than the total of all its sales in Canada, surely a worthwhile contribution to the national economy of Canada."

Removes Stoops From Farming

"One of the oldest of callings," the speaker reminded his audience, "farming had seen few changes down through the ages until the coming of mechanical aids. Now changes take place with such rapidity that we do not stop to consider the transformation that has taken place." He found a ready means of recalling what farming meant in the pre-machine days by reference to those famous pictures of the great French artist, Millet, which still adorn the walls of many homes. "The Angelus," "The Gleaners," and "The Man with the Hoe," and pointed out that they all had one significant characteristic and that was the bent backs of the people working in the field.

"The full import of 'The Man with the Hoe' he brought home with dramatic force in the few lines he quoted from Edwin Markham's now famous poem in which he calls on—'Masters, Lords and Rulers of all Lands to straighten up this shape,' but Mr. Martin added, 'each step in the emancipating of the farmer from this back-breaking, brain-deadening toil has come about by the introduction of some new labor-saving machine, and thus modern farm machinery had done more than all the Masters, Lords and Rulers of all lands to straighten up this shape.'"

Farm Production Costs Lowered

"Even with Canadian farming on a higher standing than it had ever been here or in any other part of the world it still had great problems confronting it, such as the difficulties of Western Canada with soil-drifting, rust and grasshoppers; the low price that prevailed for some of its products; the disparity of farm product prices with the prices of manufactured products generally, and the problem of dwindling export markets for wheat and its consequent low price."

"But here again," the speaker said, "the agricultural engineer comes to the aid of the farmer and cited the development of the One-Way-Disc Seeder which, combining the various operations of tillage and seeding all in one, saved too much over-cultivation of the soil and left it in a matted condition which successfully retarded soil-blown and at the same time cut the cost of tillage and seeding by at least 40%."

"In the great need for concentrating on lower cost of production the agricultural engineer had effected an adaptation of the combine method of harvesting in the new small power-take-off combines which brought the advantages of this most economical method of harvesting within the scope of the farmer of smaller acreages. A one-man outfit," Mr. Martin said, "farmers last year told him that their only out of pocket expense for operation was the cost of gas and oil which amounted to what it would have cost for the price of binder-twine alone, if they had used the binder-thresher method, saving the cost of stookers and threshing crews, and the woman of the farm was saved the ordeal of cooking for the threshing crew, etc."

"Tractors, too, had shown as great improvements, especially in the reduction of operating costs. Citing one striking example in the new tractor for the sowing in oil alone, 5 quarts instead of 12 being now required at a filling and of only needing to change every 100 hours instead of every 30 as heretofore. Saving as much as \$50.00 a year."

"Agricultural engineering was working hand in hand with the farmer in the solution of his problems and in lowering the costs of production and so helping to put farming on a more profitable basis."

Knowledge

When you know a thing, to hold that you know it, and when you do not know a thing, to allow that you do not know it; this is knowledge.—Confucius

VERY LATEST

By Patricia Dow

Pattern 8792

Sizes: 14, 16, 18, 20, 22, 24, 26, 28, 30 and 32. Size 16 requires 3 1/2 yards of 39 inch fabric, with short sleeves, and 3/4 yard contrasting; with long sleeves 4 1/2 yards.

FOR THE SPORTS-WOMAN

Pattern No. 8792: The active sports fan will revel in the freedom provided by this shirt maker. In fact, sports-woman or not, you'll enjoy the comfort and the attractive lines of this all-occasion frock. The sculptured edge front closely calls attention to the smart styling with simplicity maintained throughout. The high shoulder line is good, and the notched collar youthful.

The skirt has a well-defined hip line. The two short darts at the waist give the slenderness that all women enjoy and there is generous fullness in the skirt that the deep centre pleat provides. Two patch pockets are decorative and, besides, it's handy to have them.

The few hours spent in making the frock will repay you over and over again in the satisfaction that wearing it will give you.

For Pattern, send 10 cents in coin (for each pattern desired) your NAME, ADDRESS, STYLE NUMBER and SIZE to Patricia Dow, (Wainwright Star) Pattern Dept., 115 Fifth Avenue, Brooklyn, N.Y.

The World of Wheat

H. G. L. Strange,
Director, Research Department,
Searle Grain Company, Ltd.

"Farmers lose, over a term of years as much money from root rot damage to their crops as they do from Black Stem Rust!"

This startling statement was made to me several years ago by a leading Canadian authority on plant diseases. All that I have heard since tends to confirm what he then said.

But we know that rust has taken, on the average over a term of years, about 10 per cent. of our farmers' crops. The toll taken by these root rot diseases, too, therefore, must be very great. Can anything be done to stop this large steady annual loss?

Fortunately for the farmer it has been found that treating the seed before sowing with mercurial dust, Corean or Leytossan, greatly lessens the damage from root rot diseases.

The mercurial dust treatment has the further advantage that it will also prevent damage from stinking smut or bunt.

The use of fertilizer, too, sown into the ground with the seed, is now a common practice on our prairies. With it the crop matures earlier, shows a higher yield and the grain has a better grade. Besides this, fertilizer certainly decreases damage from wire worms. It is good practice, and farmers, I recommend, should certainly consider it.

Following factors have tended to raise prices: France to reduce duty against Roumanian agricultural products—Absence of Australian wheat offers—Unlikely world crops will equal those of 1938—California fruit crops damaged by severe wind—Unfavorable Argentine government corn report—Wind damage modifies excellent Italian winter wheat prospects.

Following factors have tended to lower prices: Argentina putting larger quantities of wheat afloat—Italy agrees to purchase Yugoslav wheat—France reduces quantity of foreign durum wheat permitted in mixtures—Favorable new corn crop prospects—South Africa—Wheat and oat seeding starts in Argentina.

WHY POWER DETERMINES Operating Costs

When a tractor pulls 4 plows instead of 3 and a disc or packer that gets the job finished more quickly and reduces operating costs. This is made possible only by using

Announcing a New FORD and MERCURY DEALER

1939 FORD V-8

1939 DE LUXE
FORD V-8

MERCURY 8

Wainwright Motors

F. GERALD CONROY, Prop.
SECOND AVENUE WAINWRIGHT

Ford Motor Company of Canada, Limited, takes pleasure in announcing this new dealership. The appointment is in keeping with its established policy of providing the highest type of representation in each community.

This new Ford dealer is equipped to render service on cars and trucks at low cost. Mechanics are careful and capable. Only Genuine Ford Parts are used, and labour on all ordinary maintenance operations is billed at a standard flat rate.

We invite you to visit this new Ford dealer for service, and also to inspect the

1939 Ford V-8 and the De Luxe Ford V-8. Both cars have graceful sweeping lines, though they differ in design. Both are generously proportioned, inside and out. Both have new hydraulic brakes, built to strict Ford standards.

And both... by reason of scientific soundproofing and new seat construction... invite you to enjoy a really restful and secure ride. They are powered with the famous 85-horsepower V-8 engine.

See also the new Mercury 8, which provides Ford quality and performance in a larger car—plus a new value.

FERTILIZERS—

NOW AND THEN

Canada is a comparatively new country agriculturally, but her vaunted virgin soils are being fast depleted by cropping, by drifting and by erosion.

Fortunately, the need for restoring lost fertility is now becoming recognized generally. History repeats itself, and the experience of British farmers of nearly 100 years ago has been that of Canada more recently, says B. Leslie Emalle, chemist-agronomist.

Farmyard manure, the old standby, and still justly esteemed for its unique qualities, proved eventually inadequate to produce maximum crops. This was due to its deficiency in phosphoric acid, a discovery made when the stimulating action of ground bones on crop growth was observed.

The original superphosphate, produced by Laves of England in 1842 was made by treating bone with sulphuric acid. Subsequently, the mineral phosphate rock was substituted for bone, with results no less satisfactory, and the process, identical in principle, continues to this day.

Superphosphate, supplying phosphoric acid, was the first commercial fertilizer manufactured in Britain, but as early as 1830 shipments of nitrate of soda began to arrive from Chili and, in 1840, guano, a nitrogen-phosphate fertilizer, from Peru. It was not until 1860 that the need for potash in fertilizers was demonstrated by Liebig, of Germany. Since then no addition has been made to the list of "essential" fertilizer constituents, and a "complete" fertilizer is one containing nitrogen, phosphoric acid and potash in available forms.

Superphosphate constitutes usually more than half the weight of the fertilizer mixture.

Although during the past 80 years—except for the occasional inclusion of magnesia or some of the rarer elements required for special purposes—no plant food substances other than nitrogen, phosphoric acid and potash have been added to the "complete" fertilizer, the sources of these ingredients are much more numerous and varied than formerly.

Superior superphosphate of Canadian manufacture is prepared by improved mechanical process, and was introduced here in 1930. As sources of nitrogen there are now at the disposal of the manufacturer the following materials containing the percentages of nitrogen shown in brackets: nitrate of soda (16), sulphate of ammonia (20), cyanamid (22), urea (45)

urea-ammonia liquor (45), etc. The fixation of atmospheric nitrogen by electro-chemical means yields these materials. While nitrate of soda is still mined and refined in Chili and sulphate of ammonia recovered as a by-product of Canadian coke ovens

both are now produced synthetically as well.

Proper selection of materials, their blending, processing and curing demand the application of skill and science by manufacturers of modern fertilizers for Canadian farmers.

Canadian Garden Service 1939

By GORDON LINDSAY SMITH

Rock Gardens

Primarily rock gardens were used to transform some difficult portion of a garden into a spot of unusual beauty and charm. Where the ground sloped away so rapidly that rains loosened the soil, the new kind of gardening helped, and it also formed a pleasing connection for rough land leading up to woodland at the back of the garden proper.

In recent years, however, the rock garden has become so popular that people are going out of their way to make an excuse for one. They will build their lawns on two different levels with a rock garden in between.

The gardens are made to resemble miniature alpine ranges, and there are usually tiny, short, sprawly things, that require little moisture during most of the year. They are especially listed in the better seed catalogues.

To hold the sharply sloping soil, fair sized rocks of the roughest possible nature, preferably weather beaten boulders, are buried to about two-thirds their depth irregularly throughout the slope. Good pockets of sandy soil are arranged between the rocks. The flowers find a foothold here and trail over the boulders.

Shrubby and trees are arranged as background for these rock gardens. An odd tree or bush near the middle will do no harm as most of the rock plants are accustomed to some shade.

For Tenants

Pleasures of gardening are not confined to the owner of property. Even a tenant who moves regularly every spring may have a garden which will rival that of the most permanent nature. Of course the tenant is not inclined to spend a great deal of money on shrubs and trees. These things take some years to reach maturity. He can and does, however, get much the same effect with annual flowers and vines.

There are at least a score of big, bushy annuals like dahlias, cosmos, African marigolds and castor beans which will reach a height of three to eight feet by mid-July. These will furnish ample background for the hundreds of dwarf to medium height annual flowers which are listed in any seed catalogue.

To screen verandahs or unsightly fence, such things as scarlet runner beans, morning glories or hops will do the job in a few weeks.

Don'ts

The average amateur starts operations days or sometimes weeks too soon and stops long before satisfactory gardening can continue. With the general run of vegetables and flowers, there is no advantage in getting things in while there is still danger of serious frost. One set-back from a cold day or two completely offsets the early start and may indeed mean replanting the whole garden. This caution, of course, does not apply to very hardy vegetables or to flowers or grass seed. These should be sown just as soon as ground is fit to work.

A second common mistake is planting too deeply. Authorities recommend as a general rule only planting to a depth of four times the diameter of the seed. This means that seeds like peas and beans will be covered with about an inch of soil but tiny things such as lettuce and poppies will be merely pressed in.

Spacing is important as even the enthusiast does not care to spend much time kneeling and thinning. Labor can be saved by properly spacing the seed as planted. Corn, beans, peas and similar plants with big seeds can easily be sown at the distances advocated on the packet. With tiny seeded lettuce or alyssum, however,

The sweetest form in which tobacco can be smoked.

since it avoids to a large degree the suggestive innuendos which have heretofore been identified with her screen appearances.

Miss West casts herself as Peaches O'Day, a frilly figure of New York night life in 1899 with a strange passion for selling the Brooklyn Bridge to strangers in town for what it will bring. She also enjoys cutting holes in plate glass windows as a means of picking up an elaborate wardrobe on the spur of the moment.

The supporting cast is generally excellent and erudite production provides the other players with plenty to do.

WEDNESDAY, APRIL 26th, 1939

SAFETY
AND THE
ROYAL VISITThe forthcoming visit to Canada by
Their Majesties King George and
Queen Elizabeth will be a triumph of
modern safety engineering. From the
moment they board the cruiser H.M.S.
"Repulse" in England until they ar-
rive home again nearly two months
later, practically every present-day
development in scientific accident
prevention will play an important
part in protecting the lives and health
of the King and Queen.The ship which will bring them
across the Atlantic will be as safe as
human ingenuity can make it. Far
out at sea, it will be met by convoys
of the Canadian naval and air forces.
Their function will be to escort the
royal cruiser safely through Canadian
waters to its dock at Quebec.When Their Majesties set foot on
Canada's soil, history will be made.
The arrival of King George VI will
mark the first time that any reigning
monarch has visited the Canadian do-
minion. At that moment, arrange-
ments for the safety of his person that
experts have been months in
planning will go into effect.Carefully-trained corps of police
will keep enthusiastic crowds of loyal
subjects within bounds necessary for
the smooth functioning of the official
and public reception of the King and
Queen. Unprecedented problems of
motor and other types of traffic will
have been solved by engineers whose
purpose was to ensure that the maxi-
mum number of people could enjoy
the royal visit in comfort and safety,
consistent with equal comfort and
safety for Timor Majesties.The special train and automobiles
in which King George and Queen Eliz-
abeth will visit all parts of Canada
will be masterpieces of engineering
design, in beauty of line and safety of
operation. Every known device whose
purpose is the prevention of accidents
will have been incorporated into the
construction of these modern marvels
of transportation.Even more important from the
standpoint of safety will be the men
who will pilot the train and drive the
motor cars which will carry the royal
visitors. Unblemished safety records
will be the prime requisite for the ap-
pointment, for any mechanical or hu-
man failure in safely conducting the
royal tour would be a stain on the na-
tion's honor.Every Canadian citizen can do his
share in ensuring that the visit of the
King and Queen will not be marred
by any untoward incidents. The
problems of traffic movement which
will arise at every point along the
route can only be solved if every mot-
orist and every pedestrian makes a de-
termined effort to practise safety and
avoid accidents.The successful application by Cana-
dians of the recent suggestion made
by Ontario's minister of highways,
Hon. T. B. McQueston, calling for a
drastic reduction in highway acci-
dents and fatalities in the three
months prior to and during the royal
visit will be the most effective way
in which the prayer of "safe journey"
for the King and Queen in every loyal
heart can be expressed.MARK OF A
GOOD TOWNThe editor of the Redwood Falls
(Minn.) Gazette says: "The difference
between poor, fair, medium and good
towns is traceable to the number of
far-seeing business men each town
has." That is true in every instance
and is in direct proportion to the
number of public-spirited citizens the
town has.If business men generally co-oper-
ate for the benefit and welfare of the
whole group you will find a good
town. If only a few are public spir-
ited, and the majority are willing to
ride along on the efforts of the few,
the result is a fair or medium town.

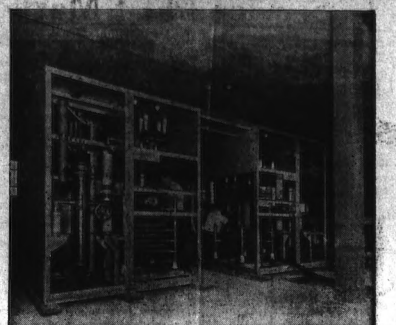

PESSIMISTIC?

Western wheat growers have devel-
oped into a pessimistic lot, says The
Lethbridge Herald, and goes on to say
that wheat prices are likely to be bet-
ter than the guaranteed minimum of
60¢ a bushel, while the chances are
that an upward trend will set in.The trouble is that, while the price
of wheat may rise, present indications
are to the contrary. And 60¢ for
wheat at the terminal means just
plain poverty for the western farm-
er.Newspapers get the same price for
subscriptions whether wheat prices
are up or down. Advertising rates
will be the same if wheat is 30¢ or 41¢.
But that assurance of stability is
denied the farmer.It costs 15¢ a bushel to freight
wheat to Fort William, whether the
price is 40¢ or 1.00.
It really needs dollar wheat to give
the west any degree of prosperity.
When the prospect is for 60¢ wheat
no wonder the farmers are pessimistic.
This country cannot get anywhere
on 60¢ wheat.If any positive assurance could be
obtained that "an upward trend will
set in" on wheat markets, as The
Lethbridge Herald intimates, the west
would not be so "down in the mouth".
But when one year's crop can bring
back 60¢ wheat so quickly there
seems to be little room for hope that
the day of low wheat prices is pass-
ing.We had thought that the low prices
of 1932 and 1933 were gone for ever.
But it now seems that they are likely
to return, whenever the harvest has
vests a crop a little above the aver-
age.CONTINUATION OF
TOWN COUNCIL(Continued from Page 1)
of the Wainwright School District
No. 1938.On motion by Councillor Eastmore,
the sum of \$5.50 in full of all claims
will be paid the operators of the rink
for the 1938-1939 season and the uti-
lity man was instructed to securely
nail up the windows and doors of the
dressing rooms.On motion by Councillor Eastmore,
it was unanimously resolved that, in
the opinion of this council, the room
provided for the purpose of training
the unemployed youth of the Town of
Wainwright, under Clause D, is a fit
and ample practice room and that Mr.
Abbot be so notified.On motion by Councillor Cork, the
Secretary-Treasurer was instructed to
notify the Calgary Power Com-
pany, Limited, that this council ap-
proves of their company making
available to commercial consumers of
the Town of Wainwright the optional
contract for commercial lighting and
also their proposal for changing 150-
watt street lamps to 250-watt lamps
at no additional cost to the town.Councillor Eastmore gave notice
that, at the next regular meeting of
council, he will introduce or cause to
be introduced a bylaw covering all
businesses and occupations in con-
nection with which the Town and Village
Act of the Province of Alberta au-
thorizes licensing and regulation, with
the exception of milk vendors and dog
registrations, which are dealt with in
separate bylaws, which bylaw so in-
troduced will repeal the bylaw now in
existence covering certain of these
businesses and occupations.On motion, council was regularly
adjourned.CONTINUATION OF
BATTLE RIVER M.D.(Continued from page one)
Department of Municipal Affairs, the
trade-off agreement with regard to
arrivals of taxes and overdue debenture
issue is wholly unnecessary and
out of order.—Carried.Moved by Coun. Steele—That the
letter from the Seed Grain and Re-
lief Adjustment Board of March 28th
be received and that the Secretary
be authorized to transfer from the
Social Service account \$13.39, from the
School account \$71.99, and from the
Hospital account \$18.12 to the
Seed Grain acct., on account of
over-depositing to these several ac-
counts from the proceeds of sale of
the NW 6-45-7, and to advise said
board accordingly.—Carried.Moved by Coun. Collette—That the
Secretary reply to letter from the Bu-
reau Relief and Public Welfare re
Mrs. Hinkey account of \$47.85 to the
University of Alberta Hospital, that
this council having investigated the
condition of this family, find that they
are well able to care for their own
hospital bills, one instance alone hav-
ing 15 head of horses to work 72 acres
of land. In the event of the Bureau
and Relief Commission carrying out
their suggestion of deducting this
amount from repayable relief to this
District, this council will have no al-
ternative but to discontinue issuing
any more direct relief.—Carried.Moved by Coun. Blakely—That the
letter from the Wainwright Municipal
Hospital regarding indigent admis-
sion tickets of March 15th be re-
ceived and the Secretary be instructed
to return two indigent tickets to
them for a refund of \$12.00.—Carried.Moved by Coun. Stewart—That this
council lease to R. Herbert the NW
and NE 1/4 of NE 22-45-7 for one
year under the same terms and con-
ditions as set out in lease date May 6th,
1938.—Carried.Moved by Coun. Dalton—That this
council lease to J. J. Ruete the NW
22-45-7 under the same conditions
and terms as set out in lease dated
April 30th, 1938.—Carried.Moved by Coun. Blakely—That this
council lease to Geo. Clapp the SE 9-
44-9 for 1939, for the amount of 1939
taxes.—Carried.Moved by Coun. Steele—That this
council lease to E. Ware the S 1/2 of
SW 12-44-7 for one year for one-third
share of crop delivered at the elevat-
or or at Wainwright, clear, storage grade
tickets deposited with the Secretary-
Treasurer in the name of the Muni-
cipal District of Battle River, No. 423,
not later than November 15th, 1939,
leasee to control all noxious weeds;
no fences, fixtures or other improve-
ments shall be removed without the
consent of the Municipal District.—
Carried.Moved by Coun. Steele—That Coun.
Dalton be appointed as a committee
to lease the W 1/2 12-45-7 for one-third
share of crop.—Carried.

Moved by Coun. Steele—That Coun.

Blakely be appointed as a committee
to lease the SE 10-45-7.—Carried.Moved by Coun. Stewart—That the
report of Coun. Dalton re Ed La-
Roque (tuberculosis) and action tak-
en be approved and accepted.—Carried.Moved by Coun. Blakely—That the
Secretary be appointed as a committee
to lease of buildings on SW 24-45-8,
with power to act.—Carried.Moved by Coun. Blakely—That the
Secretary advise Drs. Wallace and
Greenberg, regarding market fever in
the Pabian district, to strictly en-
force the Public Health Act for con-
tagious diseases.—Carried.Moved by Coun. Blakely—That the
mill rate be set at 15 mills on the dol-
lar for administration and public
works estimated expenditures for
1939.—Motion lost. For the motion:
Blakely and Smallwood; against the
motion: Collette, Dalton, Steele and
Stewart.Moved by Coun. Collette—That the
mill rate for municipal purposes be
set at 16 mills on the dollar, that the
Secretary confirm the estimated ex-
penditures as compiled and approved
for municipal purposes and cause a
bylaw to be prepared and presented
at the next regular meeting of the
council to receive the necessary read-
ings and such estimated expenditures
to be part of such bylaw and be in-
corporated in the minutes.—Carried.Moved by Coun. Stewart—That the
statement of expenditures and re-
ceipts for month ending March 31st
be accepted as presented and incor-
porated in the minutes.—Carried.Moved by Coun. Dalton—That the
report of Dr. Greenberg re O. Berg-
quist be accepted.—Carried.Moved by Coun. Smallwood—That
the matter of a municipal doctor
agreement be tabled until May meet-
ing to give the council more time to
get in touch with the doctors. The
council have under consideration for
treating the residents of the Muni-
cipal District.—Carried.Moved by Coun. Blakely—That the
Reeve and Secretary be appointed as
a committee with regard to the
municipal doctor's agreement to call
a meeting of the council when ar-
rangements have been made with the
doctors to attend such meeting.—Carried.Moved by Coun. Dalton—That the
Secretary write Mr. Olsen, C.N.R.
roadmaster, regarding cinders for
cemetery roads.—Carried.Moved by Coun. Dalton—That in
the event of receiving cinders from
the C.N.R. for cemetery roads that
the Secretary be empowered to have
same hauled and spread on cemetery
roads.—Carried.Moved by Coun. Blakely—That the
Secretary write the Royal Alexandra
Hospital, on account of John Bas-
ka, deceased, of \$148.05, asking for
further information and as to why a
doctor's account of \$50.00 is included
in this account.—Carried.Moved by Coun. Stewart—That the
bills and accounts totaling \$746.90 be
passed and paid.—Carried.Moved by Coun. Blakely—That the
Reeve and Secretary be appointed as
a committee regarding the late J.
Baska's chattels with power to act,
after receiving legal advice on this
matter.—Carried.Moved by Coun. Blakely—That
Cliff Saville be appointed pound keep-
er for Division 2.—Carried.Moved by Coun. Dalton—That the
application of D. McCann for the
leasing of Section 12-44-7 be tabled
until May meeting of the council.—
Carried.Moved by Coun. Collette—That
council adjourn.—Carried.

To Aid Broadcasting

The transmitter equipment of CBC's new radio stations, CBA and CBK, is manufactured in Canada by the RCA-Victor Co., Ltd. It represents the last word in modern construction. The photograph above shows the transmitters, each of 50,000-watt power, under construction in the RCA shops in Montreal.

Demon's Decoy - by Mildred Snow Gleason

CHAPTER XXIV

Auer flushed painfully. "It was a blind fool," he muttered. "It wasn't until Dr. Morris' previous secretary, Miss Dudley, came to New York and called on me, that I discovered that something dreadful was going on here. I had met Miss Dudley before, when there came a knock on the door on a visit here, and she knew that I was not only a friend of Dr. Morris' but also a great friend of Theodore Brown's."

"Therefore, she came to me to tell me what was happening to Dr. Brown's son, Michael. She told me that Meres had him imprisoned here and was pretending that he was in- eluded and frightened and ill. Her first words were for Michael. "Everything is going to be all right," Stephen soothed her. "Have some coffee and you'll feel better."

Mary leaned back against her pillows with a sigh. "We are going to have a proper sit-down dinner in the dining room tonight," he announced. "I suggested it and the ana- tomist yesterday afternoon. Fortu- nately, it was Morris who let me in. I hardly recognized him, he looked so ill and changed. When I questioned him, he broke down and confessed what had been going on—said that Meres had him in his power and that he didn't know what to do. I sug- gested that I stay hidden in the house for a time and wait for an opportu- nity to get him and Michael and Miss Allen away from here."

"One of the first things I did was to go down to the morgue to examine Mrs. Graham's body for any evidence of foul play." Here Auer reddened. "I have no excuse for what I did, Dr. Payne, when you walked in on me. I simply lost my head, that's all. I thought you were a spy for Meres, and I fired at you in panic. Thank heaven I'm a poor shot!"

"You're not half as thankful as I am," Stephen said tersely. "Well, what, if anything, have you accom- plished since you've been here?"

"Not much, I'm afraid," Auer said ruefully. "In fact, things only seem to be worse, what with Morris trying to commit suicide."

"You were a fool not to go straight back to Beirut and get the police as soon as Morris confessed to you. You did no good by hanging around here, and now that Meres has discovered your presence, you will be as much a prisoner as the rest of us. He's get- ting desperate, too—he realizes he is cornered, and a cornered criminal is capable of anything!"

"Auer looked mildly indignant. "Surely it is not necessary to frighten the ladies." "The situation is very dangerous," Stephen retorted. "It would be sheer stupidity to ignore the fact. How- ever, right now I think we had better get some sleep. There's nothing we can do tonight."

"A very sound idea," Auer approv- ed. He rose. "First, though, I want to try to persuade Meres to let me see Dr. Morris."

When he had left the room Stephen took Elizabeth in his arms.

"Don't be frightened, darling," he said. "We'll get out of this in some way."

"Do you believe Professor Auer's story?" she asked.

"I don't know. It may be true, but I can't help thinking that he and Meres would make a fine team," Stephen said grimly. "For the moment, I'm not leaving anyone. Now listen, I'm going to take you and Mary up- stairs to one of the empty rooms on your corridor. I've still got the only keys to those rooms, so you'll be reasonably safe for a few hours."

He crossed over to Mary. She had fallen into a restless sleep and was moaning a little.

"I'm not going to wake her," said Stephen.

He bent over and picked her up in his arms, grimacing slightly as he did so.

"Stephen, your wound!" Elizabeth exclaimed. "I'd forgotten. Let me help."

"No need," he smiled. "It's not bad, really, but I haven't been giving it much of a chance to heal. Lead the way, will you?"

They met no one on their way up- stairs. They entered the room next to Mrs. Graham's, where there were two beds. Stephen put Mary on one of them. The girl stirred and mut- tered, but didn't wake.

Stephen handed Elizabeth a key. "Lock yourself in and don't open the door to anyone but me. I won't be far away. I'm going to help myself to another one of these vacant rooms. So long, my sweet."

He kissed her quickly, then was gone.

Elizabeth locked the door after him, then lay down on the other bed. At first, the idea of being alone to sleep seemed ridiculous, but before she knew it, she had drifted off.

It was late the next afternoon when she awoke. At first she couldn't be- lieve that her watch was correct. It seemed incredible that she could have

the fact he's a veteran of the game himself. His stellar performances in goal for the Edmonton Millionaires in Winnipeg, and his tour of Europe with London's famous Grosvenor House team are well remembered in sporting circles. Lyall's sport talks are heard daily from CJCA at 12.15 noon.

What's in a Name—Plenty!

Recently CJCA conducted a survey to find out whether radio listeners like their announcers to identify themselves when signing off a pro- gram. Almost one hundred per cent. maintained that the program has much more interest for them when they know who announces it. They like to call the announcers by name.

After hatching, chicks should be housed in suitable houses that are free from draught, clean, well lighted, effectively ventilated and properly heated, states M. H. Jenkins, Domin- ion Experimental Farm, Nappan, N.S.

The temperature should be 95° F. at

the start and gradually reduced as the chicks grow older. Then, with a correctly balanced feed mixture, care- fully administered, there should be no great difficulty experienced in get- ting the young chicks away to a good start.

There are a number of well-balanced mixtures that can be prepared, but they all consist chiefly of the common cereals grown on the average well- planned farm, such as oats, barley, wheat (with corn replacing barley when prices make it a more econom- ical grain to use), plus animal pro- tein, minerals and green feed.

In chick, as in all poultry feed mix- tures, the essential vitamins should

not be overlooked. A and D are usu- ally obtained by feeding cod liver oil though sufficient vitamin A may be provided through the medium of fine- ly ground cereal grasses. Vitamin Q is usually supplied by including in the dry mash mixture dried powder milk and is found in most of the ingredi- ents used in preparing a balanced ra- tion.

The baby chicks require a mixture with a little more protein (about 15 per cent.) than do the older chicks, especially after they go out on range (about 12 per cent.).

The practice followed at the Ex- perimental Farm, Nappan, is to use one of the good commercial chick

starters until the chicks go out on the range at eight to ten weeks of age. In addition they receive a chick scratch grain from three to five weeks of age; then a mixture by weight of wheat, 1 part each of finely cracked corn and oat groats. This mixture is continued until the chicks go out on range. While on range they receive a grain mixture of 2 parts by weight each of wheat, cracked corn or scratch grain and 1 part oats, and a dry mash mixture of 100 pounds each of ground oats, barley, corn meal, bran and middlings, 40 pounds white-fish meal, 25 pounds of meat and bone meal and 5 pounds salt. As the range dries out, 5 per cent. of alfalfa

We can furnish you with Wagon Poles in the rough or semi-finished. You will find our Wagon Poles reasonably priced—and we know they will give you real service.

THE DIAL REVIEW

by Walter Dales

Profile of John J. Anthony.

John J. Anthony, mentor of the Original Good With Hogs, heard at 8 p.m. from CJCA each Tuesday, lays claim to being the nation's number one trouble seeker. Where most men avoid other people's troubles, An- thony sticks around to listen to them, devotes his life to solving them. An- thony devours books on psychology by Freud, Jung and Adler, attends divorce courts, woe trouble and ban- ishes it. He writes books, contribu- tes to magazines and newspapers. For 15 years he's been crusading against Old Man Trouble. He has "treated" over 5,000 cases, many of them before a microphone. In short, Mr. Anthony is the ace trouble shoot- er of the North American continent, bar none!

Technical Tips:

Country Subscriber writes about a technical problem. He wants to know if it would be advisable to fasten the radio ground wire to the cable of a lightning rod about 4 feet above the ground, the cable going down 10 or 12 feet. And would this be unwise during electrical storms? It's OK to connect the ground to the cable, if you do so right at the earth surface. Absolutely no increased danger in electrical storms. The further from the surface the connection is made, however, the greater the resistance and then more your set will kick up when storms brew.

Montgomery in Silver Theatre!

If you heard Robert Montgomery in last Sunday's "Silver Theatre" per- formance, it is my bet you'll want to catch the final episode of the two- part story on Sunday next, 4:00 p.m. Conrad Nagel directs the play, Felix Mills conducts the orchestra.

Home Town Boys Inspire Spring Post

Virtues of the Home Town and the Home Town Newspaper are extolled in a half hour session of music and gossip from CJCA each Saturday at 5:30 p.m. Norman L. Daniels, who has contributed poetry to some of Canada's best magazines and newpa- pers, wrote a bit of verse especially for the show, and the Home Town Boys intend to put it to music:

Home Town

You wander away from the home town,

And search in fields afar,

Where you think the grass looks greener

Than the home town where you are

You look to the lure of distant lands

You long for the strange and the new;

The verdict's the same, I'll repeat it again—

You'll return as they always do!

Holmes Gets Congrats!

Brandon Board of Trade honored Lyall Holmes recently after his sum- mary of the hockey game between Brandon and the E.A.C.'s. Holmes, CJCA sportscaster, owes much of his ability in giving hockey highlights to

MR. FARMER!

You will soon be busy with your Spring Work! No doubt you will have Repair Jobs to attend to in a hurry!

We have tried to anticipate your needs! And you can save time, and money.....by coming to us for Lumber and Building Material Requirements! We are gladly at YOUR SERVICE!

We are in position to give you excep- tionally Good Values in Lumber and Building Materials. No matter the kind of building job you have to do, we can fix you up with the right materials.

If it is new construction—we can fix you up with Top Grades at Reasonable prices!

If it is ordinary repair work—then we can fix you up with lower-priced mate- rials suitable for your job.

WAGON BOX SIDES, ENDS AND FLOORS

No matter what you require or prefer—Edge-grained Thick Flooring—Tongued and Grooved Spruce—Thick, Wide Pine, Spruce and Fir Boards—we carry them in stock!

All these Wagon Box Pieces are high grade, dry, and ready for your immedi- ate use. First time you are in town— come in and see us! We will be please- d to have you come in—whether you buy or not—and we are at your service.

We have all the materials you require for your Spring Repairs!

HERE IS SOMETHING NEW IN HOG RAISING!

DO YOU WISH TO MAKE MORE MONEY OUT OF YOUR HOGS? Sure you do! Then why not invest in one of our HEXAGON HOG BROODERS?

As a hog raiser you are interested in the business of economical hog raising!

Come on in and see us about our new type Hexagonal Hog Brooder. We can fix you up with detailed drawing—and tell you all about it—and advise you as to cost and construction.

The cost of this New Type Hog Brooder is small—and the saving is great—and all yours.

This Hog Brooder is recommended by Livestock Fieldmen—and by experts in the hog-raising industry.

POULTRY HOUSES

DON'T NEGLECT THIS SURE SOURCE OF FARM REVENUE! Keep your Poultry Buildings in good repair!

We stock all the materials you require for building.

Make 1939 an Improvement Year!

CANADA'S QUOTA IN THE BRIT- ISH BACON MARKET HAS NEVER BEEN FILLED BY CANADA! YOU HAVE THIS STEADY MARKET FOR YOUR HOGS!

PORTABLE HOG HOUSES and Colony Houses

Easy to build—and easy to move! Look after the young litters! Give them good living quarters—and watch them thrive!

See us about your Hog Plant Build- ings. We are in position to advise you as to the best type.

A splendid arrangement for a Hog Plant is this—a Hog Brooder with a few Portable Colony Houses—and we can advise you as to the Best Colony Houses.

PICKETS FOR FENCES

Protect Your Buildings With Good, Sound Roofs! Make Necessary Repairs Now! Use BRITISH COLUMBIA RED CEDAR SHINGLES!

Picket Fences add appearance to front yard. We can fix you up with any size or type of Fence Picket.

ITS AGIN THE LAW
TO USE A GUN . . .

The Best Way to hunt Customers is to use the

Wainwright Star

It wouldn't do to take a gun to go out for customers. Hunting customers requires a clever technique, but some business men are blind in their search for more business.

They are blind to the fact that advertising is good business. The investment in space in the columns of The Wainwright Star is an investment which will return quickly and many times over in an increased sales volume.

Form the habit of keeping the news of your business before the public through The Wainwright Star. Our readers are quick to take advantage of shopping opportunities. Your business will increase and more trading will be done at home by the shoppers.

It is more convenient to trade at home . . . Readers of the home-town paper patronize our advertisers. You don't need a license to advertise. Just phone us. We'll be glad to help you solve your advertising problems.

It has to be good to be ADVERTISED

ALL THE KING'S HORSES . . . AND
ALL THE KING'S MEN CAN'T MAKE A
SUCCESS OUT OF A BAD PRODUCT.
NO AMOUNT OF ADVERTISING WILL
CREATE A MARKET FOR IT. THE
MORE IT'S ADVERTISED, THE MORE
IT'S DEFECTS BECOME KNOWN.

WHEN YOU SEE SOMETHING WIDELY
AND CONSISTENTLY ADVERTISED,
YOU CAN BE PRETTY SURE IT'S WELL
WORTH HAVING. IF IT WEREN'T
IF IT DIDN'T REPRESENT AN
HONEST AND WORTHY VALUE
THE MAKER COULDN'T AFFORD TO
ADVERTISE IT.

LOOK OVER THE ADVERTISING IN THE
STAR. . . SOME OF THESE NAMES
YOU KNOW. OTHERS PERHAPS ARE
NEW-COMERS, POTENTIAL FRIENDS
BRINGING A MESSAGE OR SOMETHING
NEW. BUT ALL ARE ENTITLED TO
YOUR TRUST. . . ALL ARE HERE
BECAUSE THEY HAVE SOMETHING
REAL TO CONTRIBUTE TO YOUR AD-
VANTAGE. . . YOUR SERVICE
. . . YOUR SUCCESS.

WHEN YOU WRITE TO OUR ADVERTIS-
ERS BE SURE AND LET THEM KNOW
THAT YOU SAW THEIR ADVERTISE-
MENT IN "THE STAR". THIS HELPS

Hints for the Household

Conducted By Betty Barclay

Gem Nut Salad
3 cups canned Hawaiian pine-apple gems
1.3 cup mayonnaise dressing
1½ cups finely chopped nuts (walnuts, pecans or peanuts)
6 canned or steamed dried figs (stuffed with cream cheese)
Chicory or romaine
2 cups orange sections
Drain pineapple gems—spoon also pieces cut from the juiciest part of the fruit—dry on absorbent paper, dip in mayonnaise and finely chopped nuts. For each serving arrange 1 stuffed fig on crisp chicory or romaine surround with gems, and garnish with orange sections. Pass mayonnaise if desired. 6 servings.

Devilled Eggs in Aspic
1 package salad gelatin (aspic)
1 cup boiling water
1 cup cold water
3 hard cooked eggs
Mayonnaise
Seasonings
Dissolve salad gelatin in boiling water; add cold water. Chill until thick but not set.

Cut eggs in half crosswise, remove yolks, mash and season with salt, pepper, mayonnaise, mustard or other seasonings desired. Fill cavities in eggs and place outside down in shallow pan or individual molds. Pour on thickened salad gelatin to cover. Chill until firm. Serve as salad or with cold sliced meat. Serves 6.

Lamb Chops With Orange
6 lamb, veal or pork chops
Melted butter
Sliced oranges
Salt, pepper and paprika
Trim fat from thick chops and dip in melted butter. Oil broiler well and broil chops 8 minutes. Turn and place a thick slice of peeled orange on each chop. Broil 8 to 10 minutes longer. Sprinkle generously with the seasonings. Serve hot. Serves 6.

Chocolate Ice Cream
(Automatic Refrigerator Method)
1 square unsweetened chocolate
2-3 cup sweetened condensed milk
2-3 cup water
½ teaspoon vanilla
½ cup whipping cream
Melt chocolate in top of double boiler. Add sweetened condensed milk and stir over rapidly boiling water five minutes until mixture thickens. Add water and mix well. Chill thoroughly. Add vanilla. Whip cream to custard-like consistency and fold into chilled mixture. Pour into freezing pan. Place in freezing unit. After mixture is about half frozen, remove from refrigerator. Scrape from sides and bottom of pan. Beat until smooth but not until melted. Smooth out and replace in freezing unit until frozen for serving. Serves six.

Golden Glow Rennet Custard
1 rennet tablet
1 tablespoon cold water
1 pint milk
7 tablespoons sugar
1 teaspoon vanilla
1-3 cup apricot pulp
6 stewed or canned apricots
1 egg white
Cut the apricots into strips and divide among dessert glasses. Make rennet custard according to directions on the package. Pour rennet custard immediately over the apricots. Let stand until firm—about 10 minutes. Then chill in refrigerator. When ready to serve, beat egg white until stiff. Add 4 tablespoons of the sugar and apricot pulp. Beat thoroughly together. Put apricot whip on top of each dish of rennet custard and decorate with bits of apricot.

Orange Fluff Rennet Custard
1 package orange rennet powder
1 pint milk
½ cup whipping cream
¼ cup sugar
1 large or 2 small navel oranges
Make rennet custard according to directions on package. Then chill in refrigerator. When ready to serve top with whipped cream, and across cream place large sections of orange. If orange is large, use 4 half sections; if small, use 4 whole sections for each dish of dessert.

Corn and Salmon Pie
1½ cups flaked Canadian salmon
1 cup medium white sauce
Salt and pepper to taste
2 cups mashed or rice potatoes
1 cup corn
1 teaspoon lemon juice
1 teaspoon Worcestershire sauce (if desired)
Combine the flaked salmon, corn and white sauce. Add the lemon juice and seasonings and mix thoroughly but lightly. Line the bottom and sides of a buttered baking dish with mashed potatoes and turn the salmon and corn mixture into the centre. Cover with mashed potatoes and bake in a moderate oven (375-400° F.) for 20 to 30 minutes. A rich, white sauce, to which chopped, hard-cooked eggs have been added may be served with this if desired. Six servings.

Pilchard and Vegetable Pie
1 can of pilchards
1 cup cooked or canned peas
Salt and pepper
1 cup cooked, sliced celery
1½ cups medium white sauce
Mashed potatoes

Drain the oil from the pilchards, remove the dark skin and separate into large pieces. Arrange alternate layers of the pilchard, celery and peas in a buttered baking dish, seasoning with salt and pepper. Pour the white sauce over all and cover roughly with mashed potatoes. Dot with butter and bake for 20 or 30 minutes in a hot oven (400° F.) Six servings.

EARLY SIGNS OF STOMACH CANCER

Dr. Sara M. Jordan, of Boston, in an address to the American Medical Association last year, analyzed the early signs of cancer of the stomach. She says that there are two stages in the history of this affection, one preceding the other by weeks or months.

The symptoms to which reference will be made are both primary and secondary, that is they appear in the very earliest stages as well as later on.

Of these, pain and distress in the stomach region is the earliest sign. It may appear as a general abdominal sign. It may show itself in the right or left upper quarter of the abdomen or in the shoulders. It is a common secondary sign as well. Loss of appetite, loss of weight and vomiting come next in order as primary signs, while nausea and vomiting are second in frequency as secondary symptoms.

Loss of strength is common, while hiccup, belching, difficulty in swallowing, as well as diarrhoea or constipation may occur. Loss of weight, appetite and strength are strongly suggestive of cancer of the stomach in a patient who complains of pain and distress in that region. These signs should at once send the person for x-ray and other aids to diagnosis.

A useful rule for both patient and doctor is that in a patient of over 35 years, abdominal discomfort of over a few days duration should be checked and if persistent, checked with careful study, both x-ray and chemical. One of the best safeguards against cancer and indeed almost any disease, is periodic health examination. If the individual made it his habit to have an annual overhauling, what an enormous number of cancers, heart cases, kidney and lung affections would be caught early and at a time when they might readily be cured!

Beauty for YOU

The Secrets
of
Good Looks

DON'T NEGLECT THE LITTLE THINGS

There are some little worries that crop up often among readers' letters. It does not pay to neglect even apparent trivialities, because they can so quickly become big and tiresome.

A frequent problem concerns finger-nails that break or flake off as soon as they grow fairly long. This is usually caused by lack of calcium and insufficient fat in the system. Include more butter and cream in your diet, and start taking calcium and cod-liver oil. In addition, paint your nails with a little colorless iodine, meanwhile avoiding the use of nail varnish for a few weeks.

Tired feet take half the joy from life, so when you suffer give them this little treat. Soak them in very hot water in which you've added either bath salts or a handful of ordinary table salt. Dry with a soft towel then massage with warm olive oil. Follow up by rubbing the soles with mentholated spirits, finally dusting with talcum.

For corns, there is only one remedy. Get a good corn plaster and remove the troublesome things.

Are the muscles of your chin starting to sag? Use an astringent lotion, patting it in gently.

Have you any personal beauty problems? Drop me a line and I'll gladly write you, confidentially. And you may obtain detailed leaflets on the following subjects for a 3c stamp each: Face; Eyes; Hair; Hands; Feet; Bust; Superfluous Hair; Underweight; Slimming; Reducing in Size.

NEWS & VIEWS OF TOWN AND DISTRICT

Mrs. J. A. Mackenzie spent a few days last week on a visit to her parents at Chauvin.

While at work on Saturday last, Mr. Alex Plater's team ran away while drawing a disc, and unfortunately the machine passed over Mr. Plater. Luckily, he was only slightly injured.

Mr. and Mrs. H. Little are planning to leave for Rimley some time next week.

***If you contemplate making any additions or doing any repair work to your house or to other farm buildings, why not finance the work through the some Improvement Loan plan? You can borrow at long terms, without renewals, at small cost. The plan also covers the sinking, repair or improvement of wells or all types of water supply systems for the dwelling or any farm purposes. See Mr. McBride at the Bank of Montreal, who will be pleased to tell you all about it.

Mr. Jack Tolmie is having his residence on Second Avenue stuccoed this week, and alterations and repairs are being made at the home of Mr. Harry Smart.

Mr. Tom Hill, of Greenhills, is suffering from lumbago these days, and his son is sick in hospital with the flu.

During the past week Mrs. G. Maynes has moved into a house on Queen Street.

***Our customers are invited to call and make their guess on the hidden number for the Gold Seal Congolour Rug on display in our window. This contest is absolutely FREE, the winner taking the 6x9 rug. F. E. McLeod & Co., town.

Mr. and Mrs. Rajotte, at Greenhills, have been entertaining their daughter from the city. The visitor returned home at the week end.

Owing to an infected hand, Mr. S. Woodward is a hospital patient these days.

Mr. Pete Cherski has rented a house on First Avenue and plans to move in there next week.

***The demand for Satin-Glo was so much greater than in previous years that the dealers' stocks were sold out in the first few days, and on this account the company have extended the sale for another week (all this week) to give the agents a chance to restock. Get your supply at this low price at the Atlas yard this week.

Councillor James Robinson, who has been confined to his home with illness for the past week, was taken to hospital on Friday afternoon and is now feeling some better.

Mr. Geo. Smith has now returned to his home after a sick spell for which he had hospital treatment.

Mr. "Pudge" Smith was in town from the city over the week end.

***"Be prepared and thou shalt thrive!" Mr. Farmer, be prepared; or better still, allow the O.K. Shoe Repair the privilege of preparing for you. Take advantage of the fine repairs and pleasing prices we offer to put your harness and equipment in first-class shape for the coming spring work.

Mr. A. V. Howarth moved his furniture from town last week and the residence on Third Avenue will shortly be occupied by Mr. Phil Pon and family.

COMING EVENTS

The W.A. of St. Thomas' church is holding a Mothers' Day sale of work, tea and home cooking on May 6th in the I.O.O.F. hall.

FOR SALE
GOOD THREE-ROOM HOUSE FOR sale; cheap for cash deal.—Apply Hugh Little local. 26-4

We regret to hear Mrs. J. G. Morton is still on the sick list and wish her better health.

The farmers of this district are again becoming power-minded this spring, and every day sees more tractors and modern farm machinery leaving town.

Her many friends will indeed be sorry to learn of the serious illness of Mrs. Alec Adams, who was operated on at the hospital last week. Latest reports state this lady is doing as well as can be expected.

***Millions of people are killed or injured on this continent each year. You owe it to your family, the other man and yourself to keep your car insured so that all losses will be paid. Joe Welch, car insurance.

Mrs. Wm. Loudfoot, of Edmonton, is here for a short stay owing to her mother being a hospital patient.

Rev. Father Leamy was down from the city for a day or so last week visiting with Rev. Father Malone.

We learn that Rev. P. A. Rickard, vicar of St. Thomas' (Ang.) church is leaving for an appointment in Edmonton and will preach his farewell sermon on Sunday next. This pulpit is to be filled by a new minister who is due to arrive with his wife from Winnipeg at the end of next week.

***Don't neglect your fire insurance. The rush of Spring work often causes fires at this time. Joe Welch, insurance.

Owing to a fall last week, Miss Kathleen Atkinson, of Fabyan, suffered a broken arm and is a hospital patient.

We understand that Mrs. Bella Davidson has rented a house on Fourth Avenue west and plans to move into town very soon.

Mr. J. J. Hines, of Irma, who recently bought a new car in town, met with a serious accident at Viking last week in a collision. Fortunately only minor injuries were sustained by any of those concerned, but the new car is an absolute wreck.

Quite a number of our farmers started their spring work last week, and this week sees practically everyone in the field, the splendid weather being a great help, too.

Mr. John Wilkins has moved his family into the McBeth house on Sixth Avenue.

Mr. Jeff Taylor is moving his family to the Dundas farm for the summer, and will vacate the bungalow on Sixth Avenue near the golf course.

The Legion Notice Board

Monday next, May 1st, is our next executive meeting.
We quote from our own paper, The Legionary: "At the present time the widow of a pensioner in receipt of a pension falling within Classes 1 to 5 (80% to 100%) may be entitled to pension regardless of whether death results from the pensionable disability, providing the marriage was contracted prior to January 1, 1930."
"The Minister now proposes to extend this benefit to the widow of pensioners falling within Classes 1 to 10 (50% to 100%)."
"This, therefore, is a most beneficial provision and the gratitude of all interested will be extended to the Minister. It is to be noted that a resolution urging the proposed legislation has been passed by successive Dominion conventions of the Canadian Legion."

FOR SALE OR RENT

The West Half of Sec. 24, twp. 44, rge. 7, w4th, for sale or rent; 4 miles S.W. of Wainwright; immediate possession. Enquire

MANN, DAWSON & CO.
Grain Exchange Bldg. Calgary

Mr. and Mrs. Joe Welch motored to the city on Monday and will spend a few days there this week.

In the two games of basketball played at the school grounds on Saturday, the Hardisty teams were victorious in both boys' and girls' events after some hard playing.

***We know that Satin-Glo is a good product; that is why we sell it cheap for week each year so that our customers will try it and learn its value.

Mr. G. Milligan, of the Calgary Power Co. staff at Calgary, is in town this week measuring up the stores with regard to the plan for changing the electric rates.

Having thoroughly enjoyed a three-weeks' stay at the coast, Mr. H. P. Schlitt returned home last week end.

The tennis courts on Sixth Avenue are getting busy these days, and according to an advt. on the front page the club are calling a meeting to arrange for the season's playing.

Mrs. Harrison and her son Dave, of Aurburndale, are now back from spending the winter at the coast.

Mrs. F. Rowsell, of Edmonton, is here owing to the extreme sickness of her sister, Mrs. Alec Adams.

Mr. Clarence Budd is now driving his new Dodge car which he bought from the Brunner garage last week.

Suffering from a badly sprained ankle, Town Policeman Renville is finding a walking cane a handy adjunct this week.

***Ricker, the miller, is offering a big sale of flour until April 30th; read the advt. on page 7 this week.

The word has gone forth that no more grace is to be given regarding car and driver's licenses, and Royal Canadian Mounted Police are busy making a check-up on offending drivers. The check-up this year covers car radio licenses and also mechanical condition of the car, such as brakes, lights, horn, etc. So get your licenses NOW and save trouble, as offenders are to be prosecuted.

By noting the advt. on page five this week, ladies of this district will be able to take advantage of the free sewing demonstration to be held for the next eight days in the Masonic hall.

***Read the advt. on page 7 this week and take advantage of the big flour sale at the Wainwright Mill.

Mr. Ed Bonner purchased a car from Harold Brunner last week.

Feeling much better, and now back at his school duties, Mr. O. W. Murray has now recovered from an attack of flu.

Mr. Oric Elder, a former townman, is here for a few days visiting relatives before returning home to Saskatoon.

A very enjoyable time was spent in the I.O.O.F. hall on Saturday last, when the Junior W.A. of St. Thomas' church were responsible for a nice entertainment and tea.

After a short stay in town to holiday with their parents, Mr. and Mrs. T. Burkholder left for their home in the city last week end.

Mr. and Mrs. W. Washburn motored to the city at the week end.

Monday, May 1st, has been proclaimed as Arbor Day for Alberta.

At the meeting of the A.I.A. last Friday no less than 1,370 lbs. of free seed grain was distributed to the members. The association has now some 80 members.
